CHURCH DECORATION.
D'ORSAY'S WATER PROOF FRESCO.

We would call the attention of Societies to an excellent improvement in material for painting walls in Fresco. This material has been extensively used in the decoration of Churches, and has given the utmost satisfaction in every instance where it has been used. It is a sure preventive against leaks from the roof, and can be washed in the most thorough manner, without producing the least particle of discoloration. This method of decorating Churches is far superior to water colors—the old mode—costs but a mere trifle more, and is warranted to be imperishable.

Persons contemplating using Fresco decorations (the most beautiful of all) would do well, if they consider durability an object, to inspect specimens of this work before going elsewhere. We have plans in all styles and at all prices, which cannot but suit; besides, we do by far the most extensive business in Church decoration of any other person in the United States. Societies about repairing old buildings would do well to consult Mr. D'Orsay, who, from an experience of fifteen years in modelling and refitting Churches, is well acquainted with its necessities. Persons wishing further information upon the subject, can have ciruiars sent to their address, also plans, by addressing J. S. D'ORSAY, Artist and Inventor of Water-Proof Fresco, 343 Broadway, New-York, opposite Appleton's. Refers to the Editor of this Paper. 1341-13t

THE AMERICAN ALMANAC,
AND REPOSITORY OF USEFUL KNOWLEDGE, FOR 1856.
1 vol. 12mo, 350 to 400 pp. Price $1 paper, $1.25 bound.
To be ready in a few days.

The American Almanac is filled with matter of the greatest importance to every American. It contains the fullest information respecting the general government of the United States, and of each particular State; also such facts relating to the States of Europe as are useful to our people.

The Monthly Magazine says:—'Thousands of literary men, and literary productions of large fame and showy pretensions, will stand indebted to this modest, thin, paper-covered volume; to its rich and orderly mass of statistics, its tables of dry figures, and condensed chapters of all manner of information! Every professional man, to say nothing of the man of business, who owns it, will be saved a vast deal of running and borrowing, and guessing, and blundering in the course of the year. "Blessings on the man that" not "invented" but "arranged facts!"'
